

Ibrahimpattanam, Ranga Reddy District, Hyderabad - 501 506.

Institution's Innovation Council (IIC) 5.0

Self Activity 2022 - 2023

Academic Year	: 2022-2023
Quarter	: 2
Program driven by	: Civil Department
Program Name	: Idea Generation and Prototyping
Program Type	: Seminar
Program Theme	: Ideation & Innovation
Start Date	: 24-02-2023
End Date	: 24-02-2023
Number of Student Participants	: 57
Number of Faculty Participants	: 3
Number of External Participants	: 12
Expenditure Amount, If any	: 5000/-
Mode of Session delivery	: Offline

Overview

Objective

- To improve the design thinking, ideate and prototyping in civil engineering industries.
- To educate the students to enrich the innovation to improve a product and or service in new techniques.
- To understand the emerging trends in civil engineering

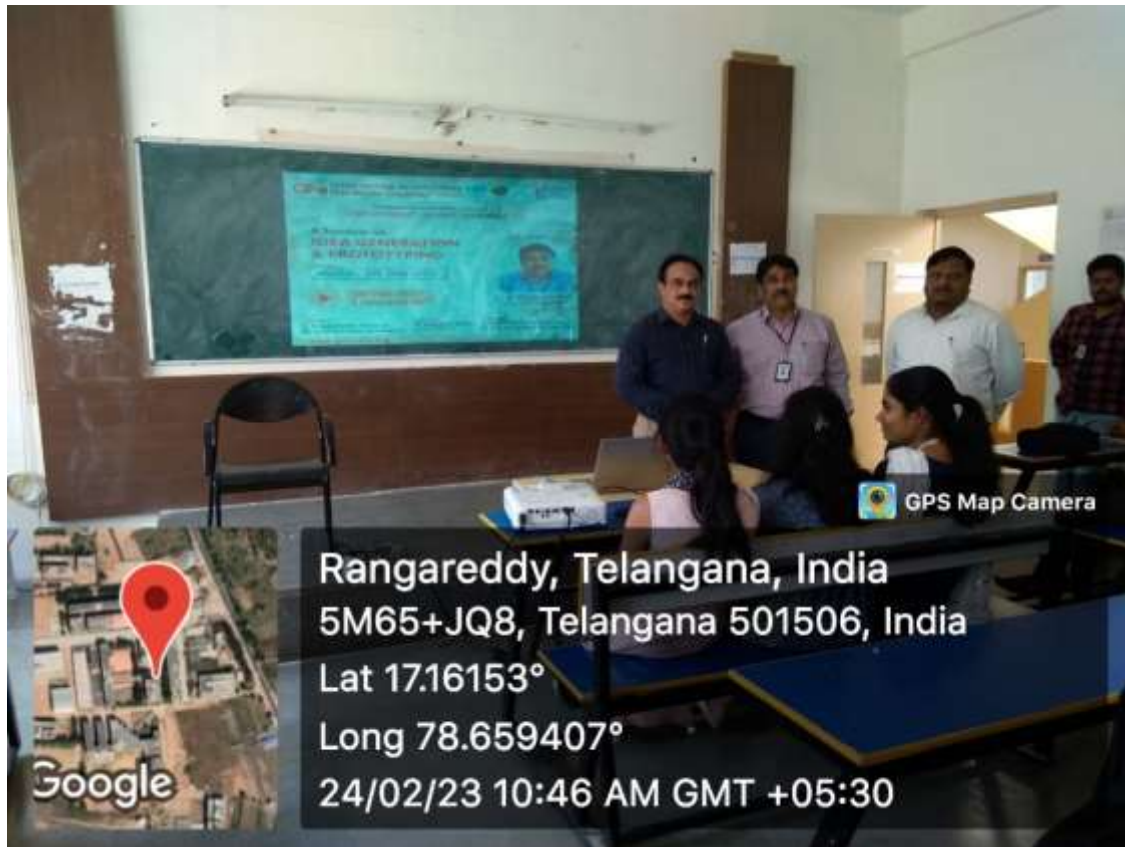

Benefit in terms of learning/Knowledge obtained

The participants know the design thinking, ideation and prototyping in products.

The participants understand the emerging trends and new ideas in civil engineering.

Document

Name of the activity : Idea Generation & Prototyping

Speaker : Dr. M. Sadish sendil, IIC Innovation Ambassador

Platform: Offline

Date: 24-02-2023

Overall report of the activity

Our GNITC, Civil department is organized a seminar on “Idea Generation & Prototyping” during 24th Feb. 2023. This seminar is to make the students to design thinking, innovation, idea generation and prototyping in real field. Through this seminar, the students cans understood how can an idea is a thought, suggestion or mental image about a possible outcome or course of action that can be used to help to achieve a particular goal. He explained the different methodology of idea generation. He is guided how to implement the idea generation and prototyping in emerging trends in civil engineering. He explained latest Innovation technologies in civil engineering field. Finally, this seminar is much more helpful to student to enrich their idea generation and prototyping in civil engineering industries.
